

Inspirational Message

Input File: inspiring.txt

In *Inspirational Message*, you are trying to cheer up your friend. You must write an inspirational note to him to brighten his day. You will be given a certain number of words that you must print to the console in the specific format given below.

Input:

The first line will have a number specifying the number of lines below. The next lines will each contain one word (string). You do not need to check the validity of the input.

Output:

You will output the words in the specific format shown in the example output below. You must print out **everything** shown below the example output, including all of the dashes, slashes, etc. in the answer.

Example Input:

```
3
Amazing
Awesome
Fantastic
```

Example Output:

```
/-----\
\*!Amazing!*/
\*!Awesome!*/
\*!Fantastic!*/
\-----/
```
